

Setting up Application Environment

Docker CLI Installation

Step 1. Download Docker from docker.com and install it by running the Docker Desktop Installer.exe file

Step 2. Goto hub.docker.com register and create an account and login with the same

The screenshot shows the Docker Hub website's registration page. The header includes the Docker Hub logo, a search bar, and navigation links for Explore, Pricing, Sign In, and Register. The main content area features a large blue banner with the text "Build and Ship any Application Anywhere" and a subtext stating "Docker Hub is the world's easiest way to create, manage, and deliver your team's container applications." To the right, a white registration form titled "Get Started Today for Free" is displayed. It includes a "Sign In" link for existing users, input fields for Username, Email, and Password, and checkboxes for product updates and terms agreement. A CAPTCHA "I'm not a robot" is at the bottom of the form.

dockerhub Search for great content (e.g., mysql) Explore Pricing Sign In Register

Build and Ship any Application Anywhere

Docker Hub is the world's easiest way to create, manage, and deliver your team's container applications.
