

Create UI to interact with application

• Reduce library's operating cost.

- Customized reports for better management.
- Remove manual processes to issue books and maintain records.

DISADVANTAGES

- Online stored data is predisposed to cyber hacks. Opting for a reliable online system reduces the risk
- sometimes it is complicated to operate for first-time users
- Requires high-speed internet connectivity for a web-based system
- Risk of computer virus
- Unlike online systems that use cloud computing, Open source system stocks data on the computer's hard drive. This raises the risk of data loss.

Latest books are always available here!!!!

- The Naked Don't Fear the Water, Matthieu Aikins.
